1.1 Code of Conduct

Preamble:

Statement on Equity, Diversity and Inclusion

Federal Retirees is committed to equity, diversity and inclusion and rejects all forms of discrimination in our organization and in the activities we support. We adhere to the principles of advocating for the best interests of our members and would like to be recognized as a respected national voice that supports a safe, healthy and dignified retirement for federal retirees and all Canadians; to foster membership retention and growth; and to strive for organizational excellence at all levels of the organization by integrating the principles of EDI into concrete practices.

Federal Retirees understands that the concept of EDI encompasses the representation of people of all ages, career stages and employment statuses, geographic locations, races, national, cultural and socioeconomic backgrounds, marital and family statuses, genders, gender identities, sexual orientations and physical abilities. As part of our commitment to EDI, we commit to nurturing awareness of the impact of assumptions on our interactions and decision-making, both internally and externally, and to developing effective strategies to remove any barriers to equal representation within our organization and the equity of access that may result.

We are committed to building understanding of EDI at various levels and acting in a number of ways, such as:

- At the Board of Directors level, we encourage the appointment of a diverse group of individuals with a balance of gender, professional and geographic representation, while maintaining the best combination of skills and expertise to ensure optimal strategic thinking and effectiveness; and
- At the staff level, we encourage recruitment based on measures of human potential, in addition to skills and expertise, and we help individuals understand what motivates and depletes them in order to retain them in roles, projects and teams where they naturally thrive.

This Code of Conduct applies to all Members of the Association.

- 1 Every Member will treat every other Member and employee with respect.
- 2 The Association's business will be conducted in accordance with the By-laws and Regulations of the Association and in compliance with the laws of Canada and to any applicable Provincial or Territorial law where its business may be conducted.

- 4 Any Member who is on a board or a committee of the Association or is acting for or on behalf of the Association at any level in the Association must maintain the highest standards of confidentiality, including but not limited to compliance with the Association's Privacy Policy, regarding information obtained directly or indirectly through his or her involvement with the Association. This includes information about Members, employees, partners, contractors, job applicants, and other volunteers.
- 5 Materials and programs developed for the Association are the property of the Association and are not to be used in situations external to the Association without prior approval of the Board.

- 7 Members shall not conduct Association meetings or represent the Association if impaired by any substance.
- 8 Members shall not discriminate by reason of race, religious belief, colour, gender, mental or physical disability, marital status, ancestry, age, place of origin, family status, source of income, or sexual orientation.
- 9 Harassment, interpreted as unwelcome conduct, comment, gesture, contact, or intimidating and offensive behaviour likely to cause offence or humiliation, will not be tolerated.

REGULATION (revised)

1.2 Fiduciary Responsibility & Conflict of Interest

1. Fiduciary Responsibility

- 1.1 Every Member who volunteers with the Association (each a “**Volunteer**”) has a fiduciary responsibility to the Association. By acting in the name of the Association, the volunteer is in a position of trust.

2. Duty and Standard of Care

- 2.1 Every Volunteer, in exercising his/her powers and discharging his/her duties, shall:
- (a) act honestly and in good faith with a view to serve the best interests of the Association;
 - (b) put the Association’s interests ahead of personal interest
 - (c) exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.
 - (d) act within the scope of authority of his/her volunteer role.
 - (e) obtain Board approval before participating as a representative of the Association on any organizations. The Board could withhold approval if the organization does not carry appropriate insurance coverage (explicitly Directors and Officers Liability Insurance with coverage of \$5 million or more). The Board would also consider other aspects not limited to whether the organization is aligned with this Association’s mission.
 - (f) when acting as an individual in other groups, volunteers shall not purport to represent the Association in any way or form.

3. Duty of Knowledge

- 3.1 Every volunteer, in exercising his/her powers and discharging his/her duties, shall be familiar with the knowledge required for their role and shall work within the limits of that knowledge.

4. Duty to Disclose

- 4.1 A Volunteer who serves on a committee or board shall disclose any circumstances:
- (a) that would constitute a conflict of interest or allow the Volunteer to benefit from a decision of that committee or board; or
 - (b) that might limit, or be seen to limit, the Volunteer’s capacity to participate fairly and impartially in the discussions, deliberations and decisions of the committee or board.

Section 1 Conduct

5. Decision Regarding Conflict

- 5.1 In the event there is a dispute about whether or not a conflict exists, the matter shall be referred to the Board for a determination. The Board shall determine if a conflict of interest exists and, if it concludes that a conflict of interest does exist, the action(s) that must be taken in respect of such conflict of interest.

6. Non-Disclosure

- 6.1 A Volunteer who is found to have failed to disclose a conflict of interest may be subject to discipline.

REGULATION

1.3 Reporting Misconduct (Whistleblowing)

1. Purpose

1.1 The purpose of this regulation is:

- (a) To establish a mechanism by which volunteers and members can bring concerns involving unethical, illegal or fraudulent or reckless conduct which impact on the National Association of Federal Retirees' financial or operational activities or reputation, to persons in authority within the Association.
- (b) To provide protection from retaliation for any person who brings forward allegations of misconduct in good faith.

1.2 This policy is not intended to circumvent other reporting mechanisms that currently exist under the Association's own bylaws and regulations and policies, or complaint and redress mechanisms established under government regulatory policies, such as Health and Safety and Human Rights legislation.

2. Whistleblowing Incidents

2.1 The term "whistleblowing" refers to the act of reporting concerns regarding misconduct to persons in authority. At the National Association of Federal Retirees, the misconduct may be on the part of volunteers, employees, members, partners or other entities or individuals who may engage with the Association.

2.2 For greater clarity, reportable activities or conduct could include (but not be limited to):

- (a) Breach of legislation, including criminal activity (embezzlement, bribery, theft) and breach of the Canada Not-for-Profit Act.
- (b) Violations of the Association's By-laws, Regulations, operational or board policies that constitute gross mismanagement or omission or neglect of duty.
- (c) Breach of fiduciary duty or abuse of trust. The imperative of fiduciary duty is to act honestly and in good faith, act in the best interest of the Association and subordinate (when acting for the Association) personal interest to those of the Association.¹

¹ Duties and Responsibilities Hugh M. Kelley, Canadian Society of Association Executives.

Section 1 Conduct

- (d) Fraudulent financial reporting.
- (e) Misappropriation or misuse of the Association's resources, such as funds, supplies, or other assets (E.g. fraudulent expense claims).
- (f) Abuse or exploitation by a volunteer or a member or any other person affiliated with the Association, particularly if the person is vulnerable
- (g) Serious endangerment of the health and safety of volunteers, members or employees or failure to act on reports of hazardous conditions.

3. Reporting Procedures

- 3.1 All volunteers of the Association are not only encouraged, but expected, to report unethical, fraudulent, dishonest or reckless conduct, preferably in writing, to an appropriate person in authority. "Person in authority" means:
- (a) The Branch President, if the alleged misconduct occurs at a Branch and involves a Branch volunteer, member or partner.
 - (b) The Chief Executive Officer, if the alleged misconduct implicates National Office Staff.
 - (c) The applicable District Director, if the alleged misconduct involves a volunteer who works primarily at the Provincial or District level, or if a Branch President is implicated.
 - (d) The National President, if a Director or the Chief Executive Officer is the subject of the complaint.
 - (e) The Vice President and/or the chair of the Audit Committee, if the National President is the subject of the complaint.
- 3.2 If the person to whom the complaint is submitted fails to undertake an investigation and/or take reasonable follow-up action in a timely manner, the complaint should be escalated to a more senior person or the Chair of the Audit Committee for the national Board.

4. Preliminary Review and Investigation Procedures

- 4.1 The person to whom the complaint is made will initiate a preliminary confidential review, sufficient to determine next steps. Depending on preliminary findings, the person who has received the complaint may do one or more of the following:
- (a) If the complaint was clearly based on misinformation and is not founded, provide evidence of this to the complainant, document the incident and retain a confidential file on the matter and proceed no further; or

Section 1 Conduct

- (b) Refer the complaint to a more senior person of authority for further investigation or direction; or
- (c) Seek the guidance of National Office staff or the Board; or
- (d) Initiate a more extensive investigation, which may include interviewing witnesses, and examining documents. Branch Presidents are advised to consult the National Office for guidance before proceeding as it may be advisable to engage a professional outside investigator for this.

4.2 All whistleblower preliminary reviews and investigations are to be conducted in a sensitive and confidential manner, to the greatest extent possible. The identity of the whistleblower will not be made public without his or her consent, except where necessary to allow officials to investigate and as required by law.

4.3 Conversely, whistleblowers are asked to exercise discretion while the review or investigation is underway, so as not to sabotage the process or damage the reputation of innocent parties.

5. Criminal Offences

5.1 If, following a preliminary review (or at any stage of proceedings) there is reasonable cause to believe that a criminal offence may have occurred, the internal investigation will be suspended and the incident will immediately be reported to the appropriate police authorities. The National Office and appropriate Director or the national President must be advised immediately if this occurs.

6. Reporting

6.1 A confidential written report on findings and recommendations of whistleblower complaint investigations must be submitted to the Audit Committee of the national Board by the investigating authority within 60 days of the complaint being lodged. Extensions to this deadline may be considered on request.

7. Protection

7.1 All individuals who bring forward complaints in good faith under this policy will be protected from retaliation. The whistleblower will not be subjected to any sanctions, including discipline, as a result of reporting suspected misconduct.

7.2 Any person affiliated with, or acting on behalf of, the Association who threatens or harasses a whistleblower will be subject to disciplinary action.

7.3 The Association will also intervene to the greatest extent possible on behalf of the complainant in the event of retaliation by a third party.

Section 1 Conduct

8. False, Vexatious or Malicious Complaints

- 8.1 A whistleblower is not expected to produce hard evidence to support his or her allegations. As long as he or she has reasonable grounds for suspicion of wrong-doing and files a complaint in good faith, full protection will be provided, even if the allegations are subsequently determined to be unfounded on investigation.
- 8.2 However, a person affiliated with or acting on behalf of, the Association, who deliberately makes allegations under this regulation which he or she knows to be false or baseless, for purposes that appear to be vexatious or malicious, may not be provided with the level of protection outlined in the preceding Article and may be subject to disciplinary action.

REGULATION

1.5 Vulnerable Sector

1. Purpose

1.1 The purpose of this regulation is to protect members and others who may be considered vulnerable persons, and the volunteers who work with them, as well as manage risk for the Association.

2. Vulnerable Person and Vulnerable Sector Check Definitions

2.1 *“A vulnerable person is defined as a person who, because of their age, disability, or other circumstances, whether temporary or permanent are (a) in a position of dependence on others or (b) are otherwise at a greater risk than the general population of being harmed by a person in a position of authority or trust relative to them”.*²

2.2 A vulnerable sector check is a background search of the Canadian Police Information Centre (CPIC) system based on name, gender and date of birth. The search will determine if the volunteer has a criminal record or pardoned sexual offence conviction that may make him or her unsuitable to work in a position in close contact with vulnerable people. The search is conducted by the local police in the volunteer’s jurisdiction. In certain circumstances, in order to confirm the applicant’s identity, fingerprints may be required.

3. Volunteer Interaction with the Vulnerable Sector

3.1 Given that the Association is a retirees’ organization, our volunteers interact regularly with two groups who are considered to be in the vulnerable sector— seniors and disabled persons. However, volunteers do not need police checks merely because they are in contact with members of the vulnerable sector— the relationship must be one in which the volunteer is in a position of authority or trust relative to the vulnerable person, as an individual. Interaction with children, who are also members of the vulnerable sector, would not normally be within the mandate of our volunteers.

3.2 The following guidance is provided to branches in determining which volunteers require screening. While every role needs to be assessed individually, the majority of our volunteers will NOT require a vulnerable sector background check in order to work in their volunteer roles.

3.2.1 Roles That Generally Do NOT Require Vulnerable Sector Screening:

² York Regional Police, definition of Vulnerable Sector

Section 1 Conduct

- a) Board Directors, unless they have a secondary volunteer role that would otherwise require a screening.
- b) Volunteers such as Membership Directors and Membership Committee members who have access to the private information in member records will also NOT normally require background checks for that reason alone. They are required to protect the privacy of member information in accordance with the privacy provision in our Code of Conduct, however.
- c) Volunteers who serve on telephone committees will NOT need a background check as long as the purpose of the call does not include providing advice or guidance on personal matters, including but not limited to health, finances, legal or family issues.

3.2.2 Roles That Generally DO Require Vulnerable Sector Screening

- a) Health Benefits Officers
- b) Volunteers who provide bereavement support and hospital comforts
- c) Volunteers who make visits to members' homes or senior or nursing homes for any reason
- d) Volunteers who provide transportation to seniors or disabled persons

4. The Association's Commitment to Volunteers Working with Persons within the Vulnerable Sector

- 4.1 The Association will support volunteers working with persons within the vulnerable sector in accordance to its commitment to volunteers in the Volunteer Work Regulation 1.4.
- 4.2 The Association will reimburse, if applicable, the volunteer for the cost of obtaining the police record check.
- 4.3 All information received by the Association with respect to the vulnerable sector police checks will be handled with utmost confidentiality.

5. The Supervisor's Commitment to Volunteers Working with Persons within the Vulnerable Sector

- 5.1 The supervisor will support volunteers working with persons within the vulnerable sector in accordance to its commitment to volunteers in the Volunteer Work Regulation 1.4.
- 5.2 The supervisor will ensure that the National Office receives the vulnerable sector police record check for the volunteer before the volunteer begins work in that role.
- 5.3 The supervisor must ensure the police record check for the vulnerable sector process is completed within two months of the request and before the volunteer is assigned to work with vulnerable individuals. In the event a police check is not provided in that time frame,

Section 1 Conduct

the National Office must be advised and the volunteer will not be considered for work with the vulnerable sector.

5.4 The supervisor will provide a request letter to the volunteer, to provide to the local police services, if required.

5.5 The supervisor must ensure that any documents created in connection with screening/police record checks are forwarded in a sealed envelope marked "Confidential-(vulnerable sector screening)" to the National Office, Human Resources for assessment and secure storage.

5.6 On receipt of the police record check results, the National Office will advise the supervisor if the prospective volunteer is cleared to work with the vulnerable sector. Volunteers with a pardoned offence or criminal record will not be automatically disqualified from volunteering with the vulnerable sector. In the event that there is concern with the returned vulnerable sector police check, an assessment will be made by the National Office to determine an appropriate role for the prospective volunteer.

6. The Volunteer's Commitment when Working with Persons within the Vulnerable Sector

6.1 A volunteer wishing to serve in this capacity must agree to apply for the police record check for the vulnerable sector.

6.2 No volunteer will be required to undergo a police record check for the vulnerable sector if he or she elects not to work with the vulnerable sector.

6.3 The volunteer will obtain the request letter from the supervisor for the police record check if this enables the police record check to be free of charge.

7. Renewal of Police Record Checks

7.1 Police record checks are valid for five years. The National Office will monitor the effective dates of completed checks and advise the Supervisor when a renewal is required.

8. Reporting

8.1 Any member of the Association who is aware of, or witnesses, abusive, exploitive or improper behavior on the part of a member, volunteer or staff member directed to a member of the vulnerable sector engaged with the Association, is required to report the incident in accordance with Regulation Reporting Misconduct (Whistleblowing).

REGULATION

4.3 Branch Reserves and Branch Surplus Funds

1. Branch Reserves

1.1. Branch Reserves are carried on the branch financial accounts as either “Allocated” or “Unallocated” reserves. These types of reserves are defined as:

- Allocated reserves – are for purposes of funding future extraordinary events and/or purchases. These reserves must be aligned with the national corporate articles.
- Unallocated reserves – are all reserves that are not held specifically as appropriately constituted “Allocated reserves”. *(Note that within the Association, unallocated reserves do include the equivalent of one year’s operating funds (based on the average of the previous three years)).*

2. Branch Surplus Funds

2.1. Branch Surplus Funds are defined as any funds in excess of net assets after deducting any allocated reserve funds, any non-liquid assets held by the branch, and one year’s operating funds (based on the average of the previous three years). Non-liquid assets include fixed assets and any other asset that cannot be liquidated within twelve months. For purposes of calculation in relation to any resolutions or regulations referring to branch surplus funds, figures are obtained from financial statements for any given year ending December 31st.

3. Calculation of Unreserved Equity for 2020 and 2021 Financial Years

3.1. Notwithstanding anything to the contrary in this Regulation, for the purposes of calculating a branch’s permitted Unreserved Equity for the 2020 and 2021 Financial Years, the branch may use the average of the branch’s operating expenses in 2017, 2018 and 2019.

4. Allocated Reserves

4.1. Any not-for-profit entity needs to ensure they manage risk including financial risk. One tool not-for-profit entities can use to manage risk is to establish reserve funds. These reserve funds can provide funding for extraordinary expenditures. The reserves listed below may be used by Branches, with the value of each reserve tailored to meet the needs and circumstances of each Branch as determined by the Branch Board:

Section 4 Branches

- **Information Technology and Equipment.** For information technology and equipment needed for the operations of the Branch.
- **Rental Facility Improvements.** For special improvements to rental facilities including renovations. This Reserve shall only be used by Branches that rent office space.
- **Special Events.** For special events such as a 40th Anniversary celebration or one-time satellite event.
- **Advocacy.** For Branch advocacy strategic planning and initiatives to enable effective advocacy representation, action and leadership based on the Association mission, vision and values including organized activities around municipal, provincial, or federal elections, town halls or all-candidate meetings.
- **Recruiting/Communications.** For recruitment activities such as a specific membership drive or special one-time communication strategies.
- **Training/Succession Planning.** For the governance training for its directors and director succession planning. The former includes training such as the ICD 'Not-for-Profit Governance Essentials' course, Excel, MS Word, Facebook or other social media, whereas the latter is for things such sending a potential Branch President to District/National meetings.
- **Human Resources Liability.** Branches with employees face liabilities related to human resources, particularly in the event of departures. Departures may incur severance settlements and unforeseen new hires may need unforeseen training. A reasonable reserve is determined using length of service, salary, and benefits.
- **Unallocated Equity.** This is not a reserve, it is an account which holds the excess of revenues over expenses (surplus). The balance shall not exceed one year's operating expenses (based on the average of the last 3 year's actual operating expenditures not including 2020 or 2021 figures and any funds expended out of reserve funds).

5. Presentation of reserves to Branch members

- 5.1. At each annual meeting of a Branch, a report on all Branch Reserves shall be presented to Members as part of the presentation of the Branch's financial statements. This will include the standard Association template which includes detailed information for the creation, changes or deletion of any reserves.

REGULATION

5.4 Soliciting

When the Association engages in solicitation the following parameters will apply:

1. The Association may pursue federal, provincial, or municipal grants that align with the purposes of the Association.
2. Branches may solicit local businesses for goods and services to support Branch functions or fundraising.
3. Branches may not approach national preferred partners for goods and services to support Branch functions or fundraising.
4. Nationally, the Association may approach national preferred partners or national businesses for goods and services to support national functions or fundraising.

REGULATION

5.5 Preferred Partner Programs

Preferred partners are third parties that offer goods and services to members of the Association at a reduced price or some other advantage. Preferred partners can be national preferred partners or Branch preferred partners. Examples of a national preferred partner include Canada-wide insurance, retirement homes and travel services. Examples of a Branch preferred partner could include a local business such as a golf course or restaurant.

While the purpose of the Association is the protection of the pension and related benefits that our members have earned because of their service to Canada, an appropriate portfolio of preferred partners enhances the value of membership in the Association and contributes to both recruitment and retention of members. However, the Association must ensure that preferred partner programs do not overshadow the main goals of the Association, nor do the benefits offered by preferred partner programs jeopardize either the not-for-profit status of the Association or result in membership fees being subject to GST/HST.

1. As appropriate preferred partnerships enhance the value of membership in the Association, the following criteria will be used in determining whether to enter into or renew a preferred partnership:
 - a. For national preferred partnerships, the CEO will consider the following factors in determining whether the proposed partnership enhances the value of Association membership (other factors may also be considered):
 - i. That the good or service will be of interest to and available to the greatest number of members possible;
 - ii. That the good or service being offered is either unique to the Association or is being offered to Association members at a price that is not generally available to members of the general public;
 - iii. That the partner has a national presence¹²;
 - iv. That the partner provides an equivalent level of service to members in both English and French;
 - v. That the partner is willing to purchase advertising in Association communications vehicles and/or support Association activities, including the Association's Annual Members' Meeting, either monetarily or otherwise.
 - b. For Branch preferred partnerships, the Branch will consider the following, criteria (other factors may also be considered):
 - i. That the good or service will be of interest to and available to the greatest number of Branch members possible;

¹² Partners who provide goods or services coast to coast do not necessarily cover all local regions in Canada. National programs will seek to benefit as many members as possible. Where gaps exist, Branches are still able to have local agreements to cover that type of good or service locally.

Section 5 General

- ii. That the partner provides service in both English and French where 10% of the Branch membership has identified the second language as their preferred language;
 - iii. That the good or service is not already provided in whole or in part by a national partner¹³ under an exclusivity agreement;
 - iv. That the good or service is being offered to Association members at a price that is not generally available to members of the general public.
 - c. In all cases, the CEO and/or the Branch, will ensure that members are advised, that while the Association recognizes the value the preferred partner offers members, the Association does not represent that a particular good or service necessarily meets a particular member's needs and that members must exercise their own due diligence and make their own determination whether the good or service is appropriate for them.¹⁴
2. All preferred partnerships, whether national or Branch, will be by a written agreement¹⁵ which contains, at a minimum, the following:
 - a. A definition of the good or service to be provided to members of the Association;
 - b. A specified duration;
 - c. A renewal clause;
 - d. A cancellation clause, in case a national preferred partnership program has an exclusivity clause, for the benefit of the Association requiring no more than one year's written notice, and ideally no more than 120 calendar days;
 - e. A definition of the support expectations of both the Association and the preferred partner;
 - f. A clause specifying, in the case of national preferred partnerships, that the contract is subject to the law and courts of Ontario, and in the case of a Branch preferred partnership, that the agreement is subject to the law and courts of the province in which the Branch is located.
3. In addition to the requirements of s. 2, all Branch preferred partnership agreements will contain the following: "The parties acknowledge that an Association national preferred partnership takes precedence over any Branch preferred partnership. If, during the duration of this agreement, the Association, at its sole discretion, enters into a national preferred partnership under an exclusivity clause that covers some or all the goods and services covered by this preferred partnership, this agreement will terminate within 120 days after the Association

¹³ Unlike section 1(a)i, section 1(b)iii refers to a good or service that is already provided in the local area in some form by a national partnership.

¹⁴ The current national disclaimer reads as follows: We believe that our preferred partners' products and service offerings are competitive in the marketplace and that they offer good value to our members. However, the National Association of Federal Retirees does not warrant that our national preferred partners necessarily offer the best savings to our members at a given point in time. Members should conduct their own research to ensure as consumers that they receive the best deal possible.

¹⁵ As preferred partnerships create legal responsibilities for the Association, there must be a written document outlining the terms of the agreement.

Section 5 General

provides written notice of the existence of the National Preferred Partnership to [enter name of Branch Preferred Partner.]”

4. In addition to the requirements of s. 2, all national preferred partnerships which contemplate an exclusive relationship between the National Association of Federal Retirees and the preferred partner will contain the following: “The parties acknowledge that Association Branch preferred partnerships covering the goods and services which are the subject of this agreement may already exist. The CEO of the Association will communicate the existence of this agreement to local Branches of the Association and during a period of 120 days, any Branch preferred partnership in effect on the date of signature of this agreement will continue to be in effect notwithstanding any grant of exclusive access to Association members covered by this agreement.”¹⁶
5. Section 124 of the *Canada Not for Profit Corporations Act* states that “Subject to this Act, the articles and any unanimous member agreement, the directors shall manage or supervise the management of the activities and affairs of a corporation.”¹⁷ The Board (or the CEO as delegated by the Board), has the authority to sign national preferred partnership contracts on behalf of the Association. A member of a Branch executive, as delegated by the Branch board, is authorized to sign a Branch preferred partnership, provided the form and content of the proposed agreement has been reviewed by the CEO prior to the agreement being signed and that review indicates there are no problems with the agreement. If the CEO is of the view that the form and content of the proposed Branch agreement does not comply with this Regulation, the CEO shall advise the branch and try to resolve, or failing a resolution, refer the matter to the national Board of Directors for a final decision and shall advise the Branch, so the Branch can make representations to the Board prior to its decision. This section applies to renewals as well. A Branch may choose to send their preferred partnership agreement directly to the national Board.
6. Under no circumstances shall a preferred partner, either national or Branch, be provided access to the names, addresses, telephone numbers, email addresses or other personal information of members of the Association¹⁸. If the preferred partner wishes to provide marketing material directly to members of the Association, the partner may, at their cost, contract with an independent third party to deliver the marketing material. Membership information will only be provided to the third party if the CEO is satisfied, at his/her sole discretion, that the third party is able to safeguard the Association’s data and protect the privacy of its members, and an acceptable non-disclosure/confidentiality agreement is in place between the Association and

¹⁶ In negotiating agreements with an ‘exclusivity’ clause, the CEO will ensure that the national preferred partnership will only override a Branch partnership if the national partner is actually able to provide the good or service within the Branch’s geographical area. Depending on the nature of the good or service, this could include making the good or service available by telephone or through a website.

¹⁷ Section 124 of the Act means that only the Board can authorize entering into contracts or delegate entering into contracts. As this is dictated by the Act, the Association cannot strip the Board of this authority except by unanimous member agreement.

Section 5 General

the third party. The CEO will report annually to the National Board of Directors or designated committee on compliance with this section.

7. Branches shall **not** receive payment based on sales of goods or services covered by the Branch preferred partnership¹⁹. Branch preferred partners may compensate a Branch for presence at a Branch event and/or sponsor a Branch event (e.g. buy table space). Ideally, fees for presence/participation at an event should be paid by the preferred partner directly to the event's facility. In cases where this is not practical, each Branch must ensure that the cumulative total of ALL revenues including all non-membership fees, does not exceed \$50K per year, per branch. Branches CANNOT charge nor collect GST/HST/QST/PST as per the Small Supplier Registration signed by all Branches in 2018.
8. Only national preferred partners may purchase or be provided with display advertising in any Association communications vehicle. This includes, but is not limited to, SAGE, Branch inserts in SAGE, electronic newsletters to members and the national website. A Branch may inform its members about Branch preferred partnerships and the benefits to its members and acknowledge a Branch preferred partner's sponsorship of a Branch event in its written communications to members. A Branch may also include information about its preferred partnerships on its own website.
9. Member issues with national preferred programs will be dealt with by national office. Member issues with Branch preferred programs will be handled by the sponsoring Branch.

¹⁹ Payments from preferred partners back to Branches based on sales of goods or services sold (i.e. flat fee or percentage) incurs GST. Given the complexity of managing GST remittances between multiple Branches and their programs, and nationally to the government, this is not workable.
