

Manitoba branches — Member priorities survey

Dear <name>,

The four Manitoba Branches of the National Association of Federal Retirees have been working closely together to explore new approaches for long-term sustainability and identify opportunities to enhance services for members through exploring a possible amalgamation into a single, unified provincial branch.

A unified branch could reduce pressure on volunteer leadership, streamline operations, and improve our ability to support you. It would also create new opportunities for members to participate, connect, and shape the future of our organization.

As we continue this work, your voice is essential. We want to understand what matters most to you and ensure that any changes we pursue reflect your needs and priorities.

Member priorities survey

Please respond to this survey by Monday, Sept. 14. Your feedback is important to the success of this project. We thank you in advance for taking the time to participate.

Our next steps:

- Final revisions of concept design considering input from the member survey.
- Member updates at fall general meetings.
- Member vote on amalgamation to one Manitoba branch.

Sincerely,

Your Manitoba branches
