

National Association
of Federal Retirees

Association nationale
des retraités fédéraux

October 27, 2016

Dear Preferred Partner;

The purpose of this letter is to advise National Association of Federal Retirees' Preferred Partners of a change in our policy concerning our membership cards. Effective January 1, 2017, Federal Retirees will no longer be issuing annual date stickers for our members to affix to the back of their membership cards in the expiry section.

As a result, Federal Retirees membership cards will continue to be valid without a current year sticker in the expiry section in 2017 and beyond. Our members will keep their existing membership cards for the foreseeable future and they are aware that payment of annual membership dues is required for continuation of their membership and for benefiting from offers from our Preferred Partners. The National Association of Federal Retirees maintains an electronic registry of all paid up memberships and we are able to verify this information.

Please inform your staff and your affiliates and instruct them to continue to honour National Association of Federal Retirees membership cards because it is now our policy that they will continue to be valid without a current year sticker in 2017 and beyond. Should you or your affiliates have any questions as to the validity of our membership cards, we would ask that you immediately resolve such an issue in our members' favour. For more certainty, you could direct them to the electronic version of this statement which is posted in the Preferred Partners section of our web site.

Sincerely Yours,

Andrew McGillivray
Director, Communications and Marketing
